~~Manual Document Editing~~

A style guide, or style manual, is a set of standards for the writing and design of documents, either for general use or for a specific publication, organization or field.The implementation of a style guide provides uniformity in style and formatting within a document and across multiple documents. A set of standards for a specific organization is often known as "house style".

~~/chapter: About This Guide / Introduction to Video Editing ...~~

Org is an outliner. Outlines allow a document to be organized in a hierarchical structure, which, least for me, is the best representation of notes and thoughts. An overview of this structure is achieved by folding, i.e., hiding large parts of the document to show only the general document structure and the parts currently being worked on.

~~How to edit text in PDF documents — Icecream Apps~~

Edit the PDF's Word version. Double-click the downloaded Word document to open it in Microsoft Word, then edit any text in the PDF that's readable. Some text in the PDF will be impossible to edit based on translation errors. You may have to click Enable Editing at the top of the Word window before you can edit the text.

~~United Nations Editorial Manual Online~~

A user guide, also commonly called a technical communication document or manual, is intended to give assistance to people using a particular system. It is usually written by a technical writer, although user guides are written by programmers, product or project managers, or other technical staff, particularly in smaller companies.. User guides are most commonly associated with electronic goods ...
