from 1995 to 2000. I have listened to many NAD amps and the 214 is by far one the best amplifiers that I have heard from NAD it's that good and I have been buying and selling audio for the last twenty eight years this amp will become a all time classic as did the 3020 intergraded.

This preamp replaces
the preamp section on

a NAD 306 that itself replaced a RC 980 BX preamp. I can only really compare it to the sound of the preamp section of the NAD 306. The NAD 306 preamp section itself was far better than the RC 980 alone. The 316 is, comparatively speaking, fantastic.
