Apex Controller System - Neptune Systems
Figure 1: AquaController Jr Connectors The AquaController Jr should be installed in a dry envi ronment that has little chance of getting wet. The AquaController Jr is a sensitive piece of electronic equipment and is not waterp roof. Ideally, it should be located several feet from the aquarium. Velcro strips with adhesi

Apex - Neptune Systems
The Neptune Systems Apex Wi-Fi Controller combines hardware control and monitoring with Apex Fusion. Apex Fusion is a cloud-based software that communicates with your aquarium hardware through the Apex Controller. Apex Fusion monitors and automatically regulates the most important parameters in your reef tank including pH, ORP, salinity ...

Version 3.20 Owner's Manual AquaController Jr
The Apex is a self-contained monitoring platform built for reliability - for when things go wrong - It's not just a toy to play with when everything is A-OK. Every Apex has a built in web-server (tech talk for its control software and built-in web interface) with complete functionality - even if the internet is down!

Get Started - Neptune Systems
Control Your Aquarium The ApexEL has built-in WiFi, Temperature, pH, monitoring and much more! Set reminders, log testing and dosing information, and access your tank from anywhere with Apex Fusion! Just as powerful as the flagship Neptune Systems Apex Controller but at a much more affordable price. The ApexEL is a great entry into gaining full control over your tank, giving you everything you ...

http://brs.li/neptuneapex This episode of BRStv goes over the Apex base unit for the Apex Aquarium controller and all the connections. The main ports to fami...

ApexEL Controller System - Neptune Systems - Bulk Reef Supply
Why does BRS recommend this? Neptune has put together a package that included the salinity, temp, pH and ORP probes, along with WiFi connectivity all in a single package. The Apex Controller is by far one of the most advanced dedicated aquarium controllers on the market today. The wide variety of controllability with the Apex Controller System and its easy to use cloud interface makes it a ...

ApexEL Product Page - Neptune Systems
The Apex is roughly the cost of a skimmer or a light fixture but does so much more. And, when you factor in the other things you will not need to buy (power strips, light timers, ph controller, electronic heater control, etc.) the incremental cost is nominal.

Apex Controller System - Neptune Systems - Bulk Reef Supply
This video covers the unboxing, set up and I also give a review on the new Apex aquarium controller from Neptune Systems. Not all brands of aquarium controllers are created equal.

Apex Controllers - Neptune Systems
Welcome to the future. The New Apex controller system has WiFi built in, includes a redesigned Energy Bar 832 with eight 120V AC outlets, includes an internal 100W 24VDC power supply as well. That power supply feeds three built-in 1LINK ports as well as two 24VDC accessory ports. Each individual outlet has power monit

Control - Tank Controllers - Page 1 - SaltwaterAquarium.com
DC Control and Accessory Wiring 1. All control devices are now 24 VDC, which can be run up to 2000 feet with 14 AWG wire. 2. Control wiring must be run in a separate conduit from power wiring. Running them together may cause interference and faulty signals in some accessories. 3. A three-wire shielded conductor cable is required to connect two

Neptune Systems Apex Setup & Review
The seven module limit will cover most tanks that do not need every bell and whistle, but may want leak detection, salinity, or any other of the many modules that Neptune has available.Great Entry Level Controller from Neptune SystemsFusion ReadyIncludes Apex Jr Controller, Apex Display Module, Long-life Temperature ProbeBasic functions: Light ...
