Read PDF Sample Nursing Charting And Documentation

Nursing assessment is an important step of the whole nursing process.

Assessment can be called the “base or foundation” of the nursing process. With a weak or incorrect assessment, nurses can create an incorrect nursing diagnosis and plans therefore creating wrong interventions and evaluation. To prevent those kind of scenarios, we have created a cheat sheet that you can print and use to ...

nurse, “if you didn’t chart it, it didn’t happen!” Charting takes up a large portion of your shift, especially if you are doing it correctly. While time consuming, good charting is essential to providing top notch patient care.

Charting for Nurses

Documentation don'ts: Time blocks Do not chart time as a block (e.g., 7-3), especially for narrative notes. Narrative documentation should reflect the actual time the entry was made. For certain types of flow sheets, such as a treatment record, recording time as a block could be acceptable. For example, a treatment that can be delivered
