vscode-solution-explorer - Visual Studio Marketplace
I had my solution in Visual Studio 2012 (which is under TFS source control) open and the TFS server (2010) was down. When I then made a change to one of the files and attempted to save it I got a prompt to ask whether I wanted to Overwrite the file saying the TFS server was down (can't remember the exact words) and the following message appeared in the Output window:

Introduction to projects and solutions - Visual Studio ...
When you create a new project, Visual Studio creates a solution to contain the project. You can then add other new or existing projects to the solution if you want. Solutions can also contain files that aren't connected to any specific project.

How do I get my solution in Visual Studio back online in ...
Currently, I add a folder _Documentation to the project and use text files, but I'm not sure if this is the best solution. Visual Studio does not have an option for automatically word-wrapping text 1, and manually fixing line breaks after each change is annoying. On the other hand, Word documents don't work well with version control, and TeX is ...

Visual Studio Project vs. Solution - Stack Overflow
A solution is a structure for organizing projects in Visual Studio. The solution maintains the state information for projects in two files: .sln file (text-based, shared)
