~~Using EclipseLink with IBM WebSphere
Application Server ...~~

IBM WebSphere Application Server
(WAS) 7 is still widely used though we
have a newer version (WAS 8.5.5, WAS
9) available. WAS 7 ND trial is not
available to download anymore

Online Library Websphere Application Server Documentation 7

however, you can do the developer base version which will help you to educate yourself.

~~WebSphere Application Server welcome page - IBM~~

WebSphere Application Server (WAS) is a software product that performs the role of a web application server. More

Online Library Websphere Application Server Documentation 7

specifically, it is a software framework and middleware that hosts Java-based web applications. It is the flagship product within IBM's WebSphere software suite. It was initially created by Donald F. Ferguson, who later became CTO of Software for Dell.
